

PARTNER SEARCH PUBLICATION FORM

If you are interested in disseminating your call to partners in Greece through our center's website, please, fill in and submit the following form.

The:

Belgian Youth Association [BESACE](#)

Is looking for:

partners from EU countries in order to submit a proposal to [Action 4](#) of the [Europe for Citizens](#) programme. The proposed project includes the shooting of a film, based on the testimonies of people from different European countries who experienced World War II, followed by screenings of it and discussions between these eye-witnesses and the younger generation. In this way the project aims at gathering Europeans from different member states and generations around a common history, allowing young Europeans to appropriate their past, reinforcing the dialogue between generations in order to keep the memory of World War II alive, as well as warning against the rise of the extremism and highlighting the importance of preserving our democratic values of tolerance, respect, citizenship and freedom.

For further information and expressions of interest to participate in the project, please, contact:

Ms. Claire Hennen
