

STRANAIDEA, a social cooperative of Torino, Italy, with many years of experience within the European programs Youth / Youth in Action and Grundtvig Partnerships is looking for partner for a KA2 Strategic Partnerships for the next deadline of the 30th of April about the labour access of people with disability.

As we work in the field of social inclusion in the labour market thanks to our long experience of educational services for mental and physical disabled (youngsters and adult), we would like to exchange our way of work with other foreign organizations in order to build useful means of analysis and description of their functioning, underline the social abilities to develop in order to plan the individual support project for their labour access and accompany them in this inclusion process.

We are looking for suitable organizations with experience in inclusion projects for people with disabilities in the labour market, supporting them to find work placements in local enterprises and monitoring the experience.
